## PROJECTS

**OCDetour** | [github.com/jsnicholas/OCDetour](https://github.com/jsnicholas/OCDetour) | [ocdetour-4111fd1eff32.herokuapp.com/](https://ocdetour-4111fd1eff32.herokuapp.com/)

- Architected a user-centric and responsive Create Activity Form design, seamlessly integrating with user accounts and dynamically displaying submitted input on user dashboards, resulting in efficient web site flow
- Developed the client-side with React, Tailwind CSS with DaisyUI, leveraging JavaScript and customized CSS; resulting in faster development cycles

**LaborHub** | [github.com/jsnicholas/LaborHub](https://github.com/jsnicholas/LaborHub) | [laborhub.herokuapp.com/](https://laborhub.herokuapp.com/)

- Built the frontend for LaborHub, utilizing Spectre.css, Handlebars.js, and JavaScript to craft a mobile-first application design
- Led the design and implementation of a responsive demographic form, facilitating seamless connectivity between user input and the MySQL server

**NightOwl** | [github.com/victoriamcn/NightOwl](https://github.com/victoriamcn/NightOwl) | [victoriamcn.github.io/NightOwl/](https://victoriamcn.github.io/NightOwl/)

- Wrote JavaScript code, utilizing Ticketmaster Discovery API and Local Business Data API, to display personalized event and dining suggestions
- Designed NightOwl's website interface inspired by nightlife, incorporating neon-inspired animated result cards and links, enticing users to book tickets and reserve tables

## EXPERIENCE

**Web Developer | JUL 2023 - Present**

- Established collaborative relationships with 2 local businesses, providing strategic guidance on website design and user experience improvements
- Programmed and executed tailored web solutions for diverse clientele, amplifying each distinctive brand identity and surpassing business objectives

**Project Analyst at Pike Engineering, LLC | NOV 2020 - Present**

- Streamlined work order assignment process for lighting team, optimizing department workload monitoring; reduced turnaround time to less than one day, enhancing productivity and customer satisfaction by 50%
- Analyzed and reported on productivity data for the decorative LED Upgrade Project; which led to informed decision-making between Pike Engineering and Duke Energy Carolinas and enhanced project efficiency by 25% and generated ~\$1 million in revenue

**Implementation Specialist at Find Great People, LLC | NOV 2019 - NOV 2020**

- Led coordination efforts for implementation meetings, seamlessly bringing together clients, underwriters, payroll vendors, and the sales department to ensure smooth project execution, resulting in increased efficiency by 15%
- Pioneered virtual team collaboration efforts amidst quarantine, facilitating the revision and consolidation for company documents; reduced inaccuracies by 30%

**Concierge at The Spa at West End | MAR 2019 - NOV 2019**

- Promoted spa's services, exclusive products, and events on company social media accounts, averaging \$1000 in sales for each event
- Spearheaded end-to-end guest services management improvements, overseeing check-ins and check-outs, scheduling, and supply monitoring; resulted in a 25% operational efficiency boost

**Freelance English Teacher in the Czech Republic | SEPT 2018 - FEB 2019**

- Adapted teaching methods, incorporating learning strategies for individual student needs and English proficiency, resulting in engaging English conversation

**Marketing Intern at Ridge Haven Camp and Conference Center | MAY 2017 - AUG 2017**

- Produced and modernized content for the company's print materials, social media platforms and website, resulting in increased engagement with target audience

**Production Intern at Infinity Marketing | AUG 2016 - JAN 2017**

- Created designs, concepts, and sample layouts based on the client, incorporating industry-leading principles of aesthetics and composition

## **EDUCATION**

Full Stack Web Development Certification, Georgia Institute of Technology | JUL 2023
